- Crossovers and Medal Matches: Untimed - best of three sets. Sets 1 and 2 are played to 25 points with a two-point advantage. Set 3 is played to 15 points with a two-point advantage.

Time Limit – Incomplete Sets:

For timed matches, if the match time limit is reached before the current set is completed:

- Sets 1 and 2: The set will count as a completed set if one team has reached at least 13 points and holds a minimum two-point lead.
- Set 3: The set will count as a completed set if one team has reached at least 8 points and holds a minimum two-point lead.
- If these conditions have not been met when time expires, the set will be considered incomplete and will not count towards sets won.
- All points played in an incomplete set will still count towards the points percentage.

Determining the Result of a Timed Match:

When the time limit is reached, the match result will be determined in the following order:

1. Completed sets won – the team that has won the most completed sets wins the match.
2. Points Percentage – if completed sets won are equal, the team with the higher points percentage wins the match.

Points Percentage = total points won ÷ total points played × 100.

This can include matches being scheduled beyond the mentioned start times outlined in the Match Schedule section.

All such instances of match rescheduling and/or relocation will be communicated with all affected teams.

This decision shall be final and will become part of the official event schedule.

SHORTENED MATCH PROTOCOL

Where a match is interrupted due to unforeseen circumstances, every reasonable effort will be made to resume or reschedule the match.

If the match cannot be resumed or rescheduled, the result will be determined using the Time Limit – Incomplete Sets and Determining the Result of a Timed Match provisions, based on the score at the time play was suspended.

For Crossovers and Medal Matches, where a draw is not possible, the TCC will determine an appropriate method for completing or determining the match..

MATCH PROTEST PROTOCOL

A formal protest may only be lodged by the Head Coach of a team and must be made to the 2nd referee, whilst the ball is out of play.

The protest will be resolved using the Protest Resolution Procedure *(see Appendix 3: On the Spot Resolution Protocol)*.

The resolved outcome of the protest is final; there will be no formal appeals process and matches will not be replayed.

MATCH FORFEITURE

The minimum number of players a team must have to compete in a match is six (6). Team must also meet the team composition rule.

If through injury/illness, disqualification, expulsion or any other reason a team has less than 6 players available to take the court then that team will be deemed incomplete and will forfeit any points and sets remaining that will result in an official match.

APPENDIX 3: ON THE SPOT PROTEST RESOLUTION PROTOCOL

a) A formal protest may only be lodged by the Coach who believes that match officials have made an error under the World ParaVolley Official Sitting Volleyball Rules as amended by this handbook, where such an error will affect the outcome of the match.

Such cases include:

i. An improper decision by the Referee who did not apply the regulations or did not assume the consequences of his/her decisions; and/or
ii. An improper decision of the scorer who made a mistake on the rotational order or on the score.

b) The following is the procedure that is to be followed to lodge and resolve a protest. To lodge a formal protest:
   i. Coach must immediately inform the second Referee (while the ball is out of play) that he/she wishes to lodge a protest at which point, the second Referee must immediately inform the 1st Referee.
   ii. Once a protest is lodged, the game is interrupted. The first Referee authorises the teams to leave the playing court and go to their bench, but they are not allowed to leave the playing area. Players are allowed to use balls in the free zone.
   iii. The 1st Referee will step down from the stand and immediately consult a Referee Supervisor to resolve the protest. The Referee Supervisor will resolve the protest and if they are unable to do so the protest will be resolved by the Referee Delegate. The RD's decision is final.
   iv. A protest about a Referee's decision to sanction a player's action or a player or official's misconduct will be considered an improper case and will be rejected by the RS/RD.
   v. The RS/RD can decide to
      a. Reject the protest (if it is an improper case) or
      b. Accept the protest as legal and decide on a ruling which can be:
         I. To Uphold the Referee's decision
         II. To Overturn the Referee's decision
   vi. If the protest is Accepted and the Referee's decision is Upheld, the game is resumed after having applied the referee's decision.
   vii. If the protest is Accepted and the Referee's decision is Overturned, the game is resumed from the point prior to the Referee's decision.
   viii. If the protest is Rejected, the game is resumed after having applied the Referee's decision. The following sanction, as applicable will be imposed:
      a. The first protest that is Rejected will incur a "Penalty" sanction (Red card), which is a personal sanction against the Coach.
      b. If there is a second protest in the same match by the same Coach and it is Rejected then the 1st Referee will sanction the Coach with disqualification (Red and Yellow cards separately.)
   ix. To resume the game, the RS/RD decision is communicated to Referees, scorer and captains.

APPENDIX 4: TWELVE (12) SUBSTITUTION RULE

a) A team shall be allowed a maximum of twelve (12) substitutions in a set.

b) A player may enter the court a maximum of three (3) times in a set. The starting line-up counts as an entry onto the court. Players in the starting line-up, subsequently have two (2) entries left in the set.

c) Players re-entering the set must assume the original position in the service order in relation to other teammates.

d) Any number of players may enter the set in each position in the service order.

Example

The following diagram illustrates how substitutions are recorded on the scoresheet.

I		II		III		IV		V		VI	
10		4		11		2		1		7	
6	3					5					
10						2					
9						5					
8						2					
10						5					
8											

In the example shown above, the starting line-up is 10, 4, 11, 2, 1 and 7.

This means that these players made their first entry for the set. During the match, the coach then substitutes into position one (I) players numbered 6, 9, 8 and 3. Number 10 has made three (3) entries and is not permitted any more entries for the set. The same can be said for player number 2 and 5 in position four (IV).

The players numbered 10, 6, 9, 8 and 3, must remain in position one (I) on the scoresheet and none of them can be used to substitute into another position in this set. For example, player 8 has only appeared twice so far and can therefore make another appearance on court but only in position one (I) and only if no more than twelve substitutions are used per set.

In the example shown above, all twelve substitutions have been used.

The scorer recording the substitutions will use the left side column first for each position and when the left is full use the right-side column.

There is no requirement to record the score at the time of each substitution.

The scorer reports the 11th and 12th substitutions of the team and the third court entry of a player to the second referee who then indicates to the coach concerned and First Referee in that order.
